Need to Add NPS/319 Terms and Conditions Required to be added to the Oregon PPG

Hi Jayne and Alan,

I will be getting CR money next week that I hope to apply as incremental funding to ODEQ's PPG Ex. 6 - Personal Privacy

Can you please let me know the final 319 T&Cs you want added to the PPG.

Alan, I see where Paul had requested that you contact ODEQ and give them a heads up that T&Cs will be added and background that they should have been added for a few years now. Did you contact them yet? I don't want them to be surprised when they need new T&Cs.

Thanks. Again, please let me know the final set of T&C you want added and confirmation that you have given ODEQ a heads up.

-Christina

Hi Lori,

Please take a look at the attached emails from Jayne Carlin. She wants to add some terms and condition about the 319 program to the award. I told her the best time to do it would be when the next incremental award is done. I also asked her about the necessity of them as they seemed somewhat redundant with the regulations. She didn't agree with me but didn't say why. Whatever you decide someone needs to talk with the state 319 program about the additional conditions so they know what to expect. I'd work with Adam Coutu at DEQ and Alan Henning for EPA. Alan is located in Oregon out of Eugene.

Regards,

Paul
